U.S. SILVER COIN BAGS

Silver coin bags are one of the most cost efficient ways to own silver. They can be easily divided for storage or later resale and the premium per ounce is one of the lowest of all silver products. Each \$1000 face value bag contains pre-1965 dimes, quarters or halves. There's approximately 715 ounces net pure silver in every bag (give or take a little because of wear on the coins).

Sorry, no credit cards at this price level.

DEPRESSION ERA SCRIP

The coins we have were privately minted for the F.W. Poe Manufacturing Company (known locally as Poe Mill) of Greenville, South Carolina. These coins were used to pay the cotton mill workers when there was a shortage of cash or when the Mill wanted a captive audience for their own (and often overpriced) commissary stores. Although common during the Depression Era these historical items have nearly disappeared and are not seen today except in museums or private collections. Order early as we are sure to run completely out of these inexpensive pieces of history. They make great historical gifts—especially cherished by anyone who lived through the 1930s. Own a great piece of history for under \$8 bucks! The 5-cent through small \$1 denominations have the same writing front and back; the large \$1 round has a different front and back. Only a few of the uncirculated pieces are available. Circulated pieces occasionally trade on ebay at \$30 to \$40.
