CASINO TOKENS**

*Premium Quality BU*

Casino tokens were first introduced in 1965, when the rising price of silver made the use of actual silver dollars problematic. Good only at the issuing casino, these tokens could be dropped into a slot machine or used at the tables for their \$10 face value. Eventually, these tokens became collectible items themselves. With the introduction of the Ike Dollar in 1971, silver coins and tokens were removed completely. Each token contains a .6 oz silver center housed in a brass ring.
