**SOLD OUT AT THE MINT!**

**2021 MORGAN & PEACE DOLLARS**

This anniversary edition recognizes the 100th anniversaries of the last year of minting the Morgan Silver Dollar and the first year of minting the Peace Dollar. This is the modern rarity of the year and maybe even the decade! These coins sold out in just minutes at the mint. We only have a limited number of sets in stock so call early. Sets are in the original mint packaging. We expect them to ship mid-November.

# Your Best Bet Against Stagflation

## WHAT IS STAGFLATION?

Stagflation is the simultaneous occurrence of declining economic growth and rising inflation. Inflation has increased from 1.5% in January 2021 to 5.4% as of August and still increasing. The Fed recently slashed Q3 GDP from 7% to 2.3% and now to 1.3%. They are both moving in the wrong direction. Thankfully, stagflation doesn't happen often. But when it does occur, as it did in the 1970s, the global financial markets can go into a prolonged tailspin.

## YOUR BEST PROTECTION

There is really only one hedge against stagflation, and that's commodities. During the 1970s, the price of gold soared more than 1,200%, from less than \$40 an ounce to over \$500. At the same time, the S&P 500 Index rose from 93 to 108, a paltry gain of only 16% over 10 years.

Let's hope the decade of the 2020s is not a repeat of the 1970s. As someone who experienced it, I can tell you that it does not bring back a lot of happy memories for most Americans. Double-digit unemployment, gas rationing, and rampant inflation are not much fun.

But if it does happen, you need to protect your hard-earned financial assets. That's especially true for folks close to retirement age, who don't have enough time to wait for the eventual recovery. For them, stagflation is a worst-case scenario.
