"EL CAZADOR"

1/4 REALS SHIPWRECK COINS

On January 11, 1784, the El Cazador disembarked from Mexico heading to New Orleans containing almost 14 tons of silver coins. It never made it across the Gulf of Mexico and was lost at sea. After it was lost, the Spanish were never able to stabilize their weak monetary system and were forced to transfer the land the France. 3 short years later, France sold roughly 1 million square miles of land to the young United States through the Louisiana Purchase. Each coin is unique and a great story in history.

MODERN "HOBO" NICKELS

~ Unique Offering ~

During the Depression (the 1930's, not 2020) hobos would often carve a beard and/or hat or onto a buffalo nickel. They would then try to trade it for a meal. Many of these are now considered rare art and sell into the thousands of dollars. While ours are modern day issues, they are still a lot of fun. Each one is made by hand and each one is different.
